PROFILE

An innovative software engineer with a passion of developing scalable, and user-friendly web applications. I have always enjoyed tech and although I did not venture in IT during undergrad. I have now transitioned and completed a seven-month intensive bootcamp at Le Wagon. Le Wagon has thought me full stack skills with the onus on Ruby on Rails and JavaScript.

PROJECTS

Morning Burrito

03/2025 – 04/2025

- Developed a mobile app to encourage and inspire people to become more creative from day to day.
- Collaborated in a team of 5 using Ruby on Rails, JavaScript Stimuli, Cloudinary, PostgreSQL to build a responsive and dynamic front-end interface.
- Co-ordinating tasks and ensuring timely delivery on the project when completing the standups.
- Improved problem-solving and debugging skills whilst developing strong collaboration and communication skills through buddy work and standups.

Blue Horizon

02/2025 – 02/2025

- Developed a webapp to encourage travel enthusiasts to rent yachts.
- Collaborated in a team of 5, we used Ruby on rails, created our own seed file and many more.
- Further development plan- adding responsive features.

EDUCATION

Web Development

Le Wagon

10/2024 – 04/2025

- 7 month part-time intensive bootcamp
